Critical thinker and resilient professional known for creating pixel-perfect designs.

Work experience

Frontend Web Developer Intern

KodeHauz Limited, Lagos From November 2022 to January 2023

- Utilized my expertise in HTML5, CSS3, Bootstrap, and JavaScript to create responsive and interactive user interfaces.
- Implemented best practices in front-end development to ensure code quality, performance, and bug-free software solutions.

Frontend Web Developer Intern

Enover Labs, Remote Since January 2024

- Utilizing my expertise in ReactJS, NextJS, TailwindCSS, and TypeScript to create responsive and interactive user interfaces.
- Collaborating with cross-functional teams to ensure the successful delivery of projects.

Completed Projects

Music Player App

[GitHub link](#), [Live link](#)

- Consumed a third-party API to fetch information about songs and display them in different categories
- Utilized Web Audio API to play, pause, previous next, loop, and shuffle any songs.
- Created playlists that you can add songs to.

NFT E-Commerce App

[GitHub Link](#), [Live link](#)

- Sort and filter products according to price, category
- You can view details on a particular product
- You can add to your cart and view your cart

Full Stack Chat App

[GitHub link](#), [Live link](#)

- Built my API with MongoDB, Express and TypeScript.
- Built the User Interface with React, Tailwind, and TypeScript
- Users can create both personal and group chats.
- Messages have real-time notifications
- Shows when someone you're chatting with is typing
