## Work experience

- **Enover Labs** Remote  
Frontend Web Developer Intern From January 2024 to April 2024
  - Utilizing my expertise in ReactJS, NextJS, TailwindCSS, and TypeScript to create responsive and interactive user interfaces.
  - Collaborating with cross-functional teams to ensure the successful delivery of projects.
  - Built a website for renting costumes safely and efficiently
- **KodeHauz Limited** Lagos  
Frontend Web Developer Intern From November 2022 to January 2023
  - Utilized my expertise in HTML5, CSS3, Bootstrap, and JavaScript to create responsive Talent Hub website.
  - Implemented best practices in front-end development to ensure code quality
  - Worked with a multidisciplinary team and contributed to the whole development process
  - Increased site performance by 20%

## Projects

### Full Stack Chat App

[GitHub link](#), [Live link](#)

- Built the Web App with React, Tailwind, Express, MongoDB and TypeScript
- Users can create both personal and group chats.
- Messages have real-time notifications
- Shows when someone you're chatting with is typing

### Costume Renting App

[Github link](#), [Live Link](#)

- Built a platform for actors, producers, skitmakers to rent costumes
- Added authentication and authorization
- Worked with a team of different professionals

### Music Player App

[GitHub link](#), [Live link](#)

- Consumed a third-party API to fetch information about songs and display them in different categories
- Utilized Web Audio API to play, pause, previous next, loop, and shuffle any songs.
- Created playlists that you can add songs to.

### NFT E-Commerce App

[GitHub Link](#), [Live link](#)

- Sort and filter products according to price, category
- You can view details on a particular product
- You can add to your cart and view your cart
